**Subject:** Stetzer Road Landfill

I got a response to my letter for site access. Apparently Anchor Swan was purchased by Thomas & Betts, a corporation located in Memphis Tennessee. The contact person is Om Chopra, and he can be reached at 901-252-5937. His e-mail address is [om\\_chopra@TBN.com](mailto:om_chopra@TBN.com). Mr. Chopra was at the site in September last year and indicated there were some areas of erosion that exposed some waste hose material. When questioned, he denied that any barrels were ever disposed of at the site. I informed him otherwise based on file information from Amerace Corp and direct observation by the concerned citizen. At any rate, he wanted to visit the site with us some time in late February. I will coordinate a date and time and get back with you.

**CC:** Czeczele, Mike
